## Fire Technology

If you've ever thought of becoming a firefighter, this is the best place to start. Learn all of the specialized knowledge of safety, rescue, and emergency medical operations in this intensive training program taught by experienced members of the fire service.

### Certificates

- Fire Technology
- Firefighter Recruit Academy

### Degrees

- A.A. Fire Technology

### PROGRAM HIGHLIGHTS

- Complete the duties of an entry level firefighter
- Analyze simulated fire situations and prescribe prevention measures
- Apply building construction concepts to fire situations where forcible entry is necessary
- Evaluate the rate of fire spread in a structure fire

## Paramedic

In as little as 18 months, you could be out in an ambulance helping people and saving lives. Rigorous training and exercises with high-tech simulators will provide you the preparation you need once you're out on a call.

### Certificates

- Emergency Medical Technician
- Paramedic

### Degrees

- A.S. Paramedic

### PROGRAM HIGHLIGHTS

- Quickly diagnose patient conditions using auditory, tactile and visual senses
- Formulate and report treatment plans to appropriate health professionals
- Learn advanced life support skills
- Compose accurate, timely patient care reports

## Administration of Justice

Here you can get all the basic training to prepare you for an entry-level position in law enforcement or to transfer to a CSU. After this program you can pursue a number of professions including Police Officers, Crime Scene Investigators, and Parole Officers.

### Certificates

- Homeland Security

### Degrees

- A.S. Administration of Justice

### PROGRAM HIGHLIGHTS

- Introduction to the criminal justice system, investigation, and correctional methods
- Learn proper evidence collection, investigative report writing, and how to take statements
- Understand how crime scenes are managed
- Learn about policing and patrol strategies
